
WE REPAIR BROKEN SURFACES

Colorado Cosmetic Repair, Inc., performs state-of-the-art spot repairs of chips, gouges, scratches, cracks, holes, discolorations and damaged finish on just about any hard surface or product found in a home, office or boat or even a plane.

WE ARE ARTISTIC TECHNICIANS

We specialize in bringing any damaged hard surface back to its original look and feel. Our artistic technicians are highly trained restoration artisans who work well with their hands and possess a keen eye for color and detail. With skill, precision and craftsmanship, they transform broken into beautiful.

WE CAN GO BIG OR SMALL

Our projects have ranged from multi-home construction repairs for the area's largest housing developers to damage-claim repairs for insurance companies to surface repair for individual homeowners.

And Best of all, we come to you!

OUR 4 STEP PROCESS:

CONSULTATION & ASSESSMENT

Give us a call, text or email telling us what your issue is. Using your description and photos we then determine a course of action and offer a budget estimate for repair.

PREPARATION

Where all the action gets started. At this point our Restoration Technicians confirm the condition of the repair area, select the appropriate tools and materials, and begin protecting the surrounding workspace.

REPAIR

Utilizing skill & precision, our Restoration Technicians get busy repairing the damaged areas and returning the surface to its original form.

POST-REPAIR INSPECTION & CLEAN-UP

What sets us apart; we always go the extra mile to ensure our repaired surfaces look great and will last. During this final inspection our Restoration Technicians ensure longevity and quality of the repair, and begin cleaning up. We believe that if you can tell we were there, we haven't done our job right and leave the workspace clean.
